Professional Summary

Senior Android Developer with 5+ years of experience building scalable, high-performance mobile applications using Kotlin and Jetpack Compose. Proven experience delivering production-ready applications across e-commerce, IoT, and AI domains, with successful deployments on the Google Play Store.

Skilled in MVVM and Clean Architecture, Server-Driven UI, and secure payment integrations including Stripe and Google Play Billing.

Core Skills

- Languages: Kotlin, Java, Dart
- Android & UI: Jetpack Compose, Android SDK, Flutter
- Architecture: MVVM, MVP
- Libraries: Retrofit, Room, Coroutines, Flow
- Backend & APIs: Firebase, REST APIs, Dialogflow CX, Gemini API
- Payments: Stripe, Google Play Billing
- Tools & DevOps: Git, CI/CD, CodeMagic

Professional Experience

D4 Insight, Chennai — Software Developer (Oct 2023 – Present)

- Developed a production-grade e-commerce Android application using Kotlin, Jetpack Compose, and MVVM architecture, focusing on scalability, performance, and seamless user experience across diverse user flows.
- Implemented end-to-end shopping functionalities including dynamic product catalog, cart management, order processing, and secure Stripe payment integration, ensuring smooth and reliable checkout experiences.
- Integrated Dialogflow CX to build AI-powered conversational features, enabling real-time user assistance and improving overall user engagement within the application.
- Designed and implemented server-driven UI components, allowing dynamic content updates without requiring frequent app releases, significantly improving development efficiency and flexibility.
- Collaborated closely with backend and product teams to align API integrations, optimize data handling, and ensure consistent feature delivery across releases.

Calibraint Technologies, Chennai — Associate Software Developer (Jul 2021 – Sep 2023)

- Developed an IoT-based Android application using Kotlin and Tuya SDK for real-time air quality monitoring, enabling seamless device data tracking and visualization.
- Improved the stability and performance of an English learning mobile application by applying MVVM architecture and optimizing data flow and UI rendering.
- Integrated Google Play Billing to implement subscription-based features, enabling in-app monetization and premium user access.
- Built an inventory management mobile platform using MVP architecture and implemented CI/CD pipelines with CodeMagic to streamline development and deployment.
- Developed multiple Flutter applications for internal enterprise use, including inventory management tools and network monitoring solutions.

Tripalive Technologies, Chennai — Android Developer Intern (Dec 2020 – May 2021)

- Contributed to the development of a social media Android application by building UI components and integrating REST APIs, ensuring smooth data flow and responsive user interfaces.

Projects

Kutlr – Lifestyle Brand E-commerce Platform

Tech: Kotlin, Jetpack Compose, MVVM, Firebase, Stripe

Developed a scalable e-commerce Android application using Jetpack Compose, featuring dynamic product catalogs, cart management, and secure Stripe-based checkout.

Outlet Studio – E-commerce Mobile Platform

Tech: Kotlin, Jetpack Compose, MVVM

Built a server-driven UI-based super app supporting multiple outlet brands within a single application, enabling dynamic features and scalable product management.

iQi – IoT Air Quality Monitoring Application

Tech: Kotlin, Android SDK, Tuya IoT SDK

Developed an IoT-based Android application enabling real-time air quality monitoring via Tuya SDK.

AI Chatbot – Conversational Assistant

Tech: Kotlin, Dialogflow CX, REST APIs

Developed an AI-powered chatbot enabling automated conversational interactions inside mobile applications.

CUSP – Subscription-Based Job Portal

Tech: Kotlin, Firebase, Google Play Billing

Built a mobile job portal implementing subscription-based premium access using Google Play Billing.

Education

Bachelor of Engineering - Electronics and Communication Engineering (ECE) -

Misrimal Navajee Munoth Jain Engineering College, Chennai (2016 – 2020)
